Highlights

- **Offers a smooth Web2-like (keyless) experience within the Aptos ecosystem**

- **Making your own AI virtual idols is as easy as ordering a Subway**

- **Back your favorite idol and cash in on success together!**

Road Map

1

MVP
Built the product within the Aptos ecosystem, we invited a select group of KOLs and creators to generate classic IPs and initiated community operations.

2

**Open Community Co-Creation and Token Release:**
We are launching our platform token, enabling creators and consumers to contribute to and benefit from our economic model.

3

**Launch of a Decentralized Trading System:**
Model shareholders can promote, vote, and trade shares freely
